

# Application recommendations for Abranopp® cleaning pads

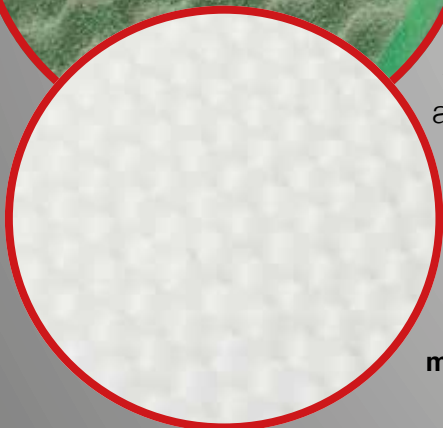

**Abranopp® purple:** Pad with a very fine abrasive grain for the removal of adherent dirt and slight foot marks. For grinding, i.e. removal of adhesive layers on new flooring prior to the application of PU sealants. **Initial cleaning and / or initial care after installation, Spray-Cleaning**

**Abranopp® grey:** More aggressive pad for maintenance cleaning of very over-maintained floors. **Initial cleaning and/or initial care after installation, Spray-Cleaning**

**Abranopp® green:** Pad with a coarse abrasive grain, aggressive for the quick and thorough removal of old layers, such as metal-net plastic/PU coatings in combination with appropriate detergents according to manufacturer's recommendation. For stripping away old wax.

**Abranopp® white:** Abrasive-free pad for removing light dirt when polishing and waxing. For levelling out after application of care products. **Spray-Cleaning**

**Please observe the notes in the product sheets and safety data sheets of the used cleaning and care products.**

**This cleaning recommendation is suitable for firmly adhered floorings. Cleaning procedures and methods in healthcare must be carried out according to the textbooks for cleaning and hygiene technology.**

**Always use Abranopp® products wet on hard flooring!**
