

## P1 DUST-FREE SANDING SYSTEM FOR NATURAL STONE

- P1 dust-free sanding system for processing granite, marble and ceramics – without exposing people and the environment to dust.
- the unique design of the grinding disc ensures a dust-free and high removal rate
- edge-precise sanding/grinding with a perfect view of the workpiece
- optimum dry sanding results are achieved in combination with the perforated useit®-Multi-Perforation abrasives
- Diamond sanding discs guarantee best results with a maximum service life

The P1 dust-free sanding system has been included in the promotion of the BG Bau (Professional Association of the German Construction Industry) for manual sanding/grinding machines. The purchase of a system is subsidised with a grant of 25% of the purchase price
